

**CITIZENS OF LEXINGTON- INSIDE CITY LIMITS ONLY  
LEAF SEASON COLLECTION SCHEDULE - 2016**

Leaf season is considered a period of time from October through December. During leaf season, the City of Lexington will be operating its leaf vacuum machines.

For the purpose of leaf collection, the City is divided into two sections. Leaf season is a weekly collection process and leaves will be collected during each designated section *only* during the assigned week. This process will be repeated throughout the leaf season. ***It is very important to become familiar with the sections and the schedule. For timely collection, leaves must be ready at the curb or roadside no later than Monday 6:00 a.m. of the designated collection week. Due to the volume of leaves collected, special collections outside of the designated cycle cannot be permitted.***

***LEAF COLLECTION GUIDELINES***

*For timely collection please be familiar with the following:*

-  *Leaves will not be collected by the leaf vacuum machines if mixed with rocks, limbs, or other types of wastes/matter. Any unacceptable matter other than leaves, will cause extensive damage to the leaf machines and will delay or prevent collection.*
-  *Leaf vacuum machines require clear access and if blocked will result in the leaves not being collected during the weekly cycle. Leaves should also be placed in large piles not multiple small piles.  
**DO NOT BAG LEAVES***
-  *Please be aware the leaf vacuuming process produces fine debris, which could settle on nearby vehicles. The City presumes no responsibility for cleaning vehicles on which leaf debris has settled.*

**For simplicity's sake, Main Street will divide the City. The two sections are described as follows:**

**West Section** – all the areas within the City Limits West of Main Street

**East Section** – all the areas within the City Limits East of Main Street and S. Salisbury Rd. (Old Hwy. 29,) Green Needles and Old Linwood Rd areas.

**COLLECTION SCHEDULE:**
