

**Small Commercial Service**  
**Schedule SC**

**Availability**

Available to the non-residential customer with monthly demand of 50 kW or less.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

Power delivered under this Schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other Schedule of the City, except at the option of the City, under special terms and conditions expressed in writing with the contract with the Customer.

**Type of Service**

The City will furnish 60-Hertz service through one meter, at one delivery point, at the available voltage.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the City before purchasing equipment.

Motors less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators and all motors of more than 25 H.P. must be the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

For Billing Months Energy		Rate
Basic Facilities Charge		\$60.00
Minimum Charge:	Basic Facilities Charge	
	Summer	Non-Summer
Demand Charge:		
First 10 kW	\$5.00 per kW	\$5.00 per kW
All Over 10 kW	\$12.00 per kW	\$12.00 per kW
Energy Charge:		
<i>First 100 kWh per kW Billing Demand Per Month</i>		
First 3,000 kWh	\$.1040 per kWh	\$.0971 per kWh
All Over 3,000 kWh	\$.0791 per kWh	\$.0722 per kWh
<i>Next 200 kWh per kW Billing Demand Per Month</i>		
All kWh	\$.0755 per kWh	\$.0686 per kWh
<i>All Over 300 kWh per kW Billing Demand Per Month</i>		
All kWh	\$.0650 per kWh	\$.0581 per kWh

**Small Commercial Service**  
**Schedule SC**

**Determination of Billing Demand**

At its option, the City may install a demand meter to measure demand for any customer served under this schedule.

The demand charge each month is computed by multiplying the applicable demand rate times the maximum integrated 30-minute demand measured during the month.

The billing demand for computing energy charges each month shall be the maximum integrated 30-minute demand measured during the month, but not less than 30 kW.

**Minimum Bill**

The minimum bill shall be the basic facilities charge.

**Power Factor Correction**

When the average monthly power factor of the Customer's power requirements is less than 90 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 90 percent and dividing the resultant value by the average power factor in percent for that month.

**Contract Period**

Customers must remain on this Tariff schedule for a period of no less than 12 months before switching tariffs or service unless it is determined by the City that the customer no longer qualifies for this service.

The definitions of "Summer/Non-Summer," "Month," "Determination of Energy," and "Sales Tax" are contained within the General Terms and Conditions and are pertinent to this rate schedule. The General Terms and Conditions Section and the Lexington Utilities Customer Service Policy Manual are an integral part of this tariff.

**Medium Commercial Service**  
**Schedule MC**

**Availability**

Available to the non-residential customer whose monthly demand exceeds 50 kW in any three months of the preceding twelve months but is less than 250 kW.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

Power delivered under this Schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other Schedule of the City, except at the option of the City, under special terms and conditions expressed in writing with the contract with the Customer.

**Type of Service**

The City will furnish 60-Hertz service through one meter, at one delivery point, at the available voltage.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the City before purchasing equipment.

Motors less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators and all motors of more than 25 H.P. must be the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

For Billing Months Energy		Rate
Basic Facilities Charge		\$80.00
